Recommended Scala example / learning repos

Repo	What it contains / why it's useful
abdheshkumar/scala-examples	A hands-on collection of Scala examples: case classes, companion objects, currying, recursion, pattern matching, etc. GitHub
fpinscala/fpinscala	Exercises, answers & hints for the *Functional Programming in Scala* ("Red book") — great to learn FP style. GitHub
jetbrains-academy/scala-tutorial	A tutorial project covering Scala basics, types, classes, higher-order functions, etc. GitHub
rockthejvm/udemy-scala-beginners	Code from Rock the JVM's Scala beginners course — good if you want to follow a course. GitHub
deanwampler/programming-scala-book-code-examples	The code examples from *Programming Scala* (O'Reilly) — helpful to see how Scala is used in "real" examples. GitHub
Baeldung/scala-tutorials	Supporting code for online Scala tutorials — you'll see code examples, tests, multi-module structure. GitHub
spark-examples/spark-scala-examples	Spark + Scala examples (RDD, DataFrame, SQL) — good if you're moving toward Spark/ETL tasks. GitHub
handsonscala/handsonscala	Executable code examples organized by the chapters of the *Hands-on Scala* book. GitHub
